No harm can come of this action and much good be done, and it will at once settle the question one way or the other, and, we feel assured, favorably."

It also states that Mr. John W. Garrett has assured Col. Allen, director from Rockbridge, "that he will make no opposition to the letting of the en-tire line, after April 1st, and John W. Garrett never went back on his word." A Southern Prospect by a Promi-

correspondent writes the following views of a prominent Radical in regard to affairs in the South: A prominent Republican Senator, who has lately had the opportunity of seeing the South for himself, has remarked since his return, that if the present condition of affairs continue, such States as South Carolina and Fiorida, for instance, must inevitably be Africanized. The result, of course, must be the exodus of the whites, the utter decay of material prosperity, and ultimately the relapsing of those States into a wilderness. These observations apply equally as well to Louisiana as to the States mentioned. It is not doubted that personal con-

tact with the people of the South, and personal experience of its condition will go very far to modify the views of many of the leading men of the North, members of Congress and others, who have already gone, or who propose to go, down South between now and next winter. It would be well if the knowledge thus gained should lead to such modification of the legislation affecting the South as would restore it to its wonted prosperity, and promote good feeling among all classes of its people, instead of the dissensions, which now prevail.
